REMARKS

2 1. In the Claims

3 In the above referred Office Action, two Election/Restriction requirements were  
4 declared. The first Election/Restriction requirement was required under 35 U.S.C. 121. The  
5 second Election/Restriction requirement was based on two patentable distinct species  
6 (species of Figs. 2-7 and the species of Fig. 8).

7 In response to the first Election/Restriction requirement, Group 1 (Claims 1-19) is  
8 elected with traverse and Claim 20 is withdrawn. In the second Election/Restriction  
9 requirement, species of Fig. 2-7 is elected without traverse. Claims 1-10 and 12-19  
10 encompass species 1. Claim 11 is now withdrawn.

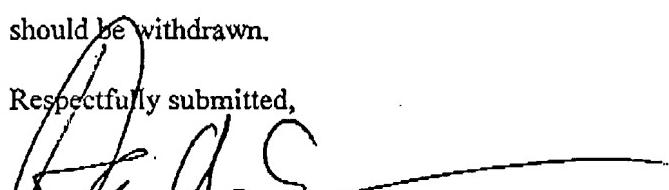

11 Regarding the Election/Restriction requirement under 35 U.S.C 121, the Examiner  
12 argued that the restriction was justified because the product can be used another materially  
13 different process. In support, the Examiner stated that the track cover could be used on a  
14 non-construction track vehicle and could be transported on other transport vehicles that  
15 enabled the elongated body to lay on the trailer or bed (An LST was given as an example of a  
16 transport vehicle where the elongated body would lay on the bed or deck of the vehicle and  
17 not over the side of trailer or bed). In response, the Applicant submits that the processes  
18 recited by the Examiner (use on a 'non construction track vehicle' and on a transport vehicle  
19 such as an LST so that the elongated body lays on the bed and not over the side of the trailer  
20 or bed are NOT material. Therefore, the restriction is not supported. In order to assist further  
21 examination however, Claim 20 has been amended so that the track vehicle is no longer  
22 recited as a 'construction track vehicle'. Also, the reference that the elongated body is  
23 'disposed over the side of the trailer or bed' is deleted and replaced with 'disposed over the

1 side of the track.' No new matter is being introduced by this amended language.

2 2. In the Drawings:

3 The Drawings were objected to under 37 CFR 1.183(a) on the grounds that the Claim  
4 20 recited the elongated body being disposed over the side of the trailer or bed which is not  
5 shown in the drawings. As discussed above, Claim 20 has been amended to recited the  
6 elongated body being disposed over the side of the track as shown in Figs. 1-4. The objection  
7 should be withdrawn.

8 Respectfully submitted,

9   
10 DEAN A. CRAINE
